

# Back to Black - Amy Winehouse (J = 123)

**Dm Gm Bb A**

He left no time to regret                      You went back to what you knew  
Kept his dick wet                                So far removed  
With his same old safe bet                    From all that we went through

Me and my head high                            And I tread a troubled track  
And my tears dry                                My odds are stacked  
Get on without my guy                        I'll go back to black

We only said goodbye with words  
I died a hundred times  
You go back to her  
And I go back to (.)  
I go back to... us

I love you much                                And life is like a pipe  
It's not enough                                And I'm a tiny penny  
You love blow and I love puff                Rolling up the walls inside

We only said goodbye with words |  
I died a hundred times                    | (2x)  
You go back to her                         |  
And I go back to                            |

**Dm Bb<sup>7+</sup> F A**  
Black, black, black, black

**Dm Bb<sup>7+</sup> F A A7**  
Black, black, black, I go back ... I go back

We only said goodbye with words  
I died a hundred times  
You go back to her  
And I go back to

We only said goodbye with words  
I died a hundred times  
You go back to her  
And I go back to black (-> Dm)
