

# Long Time Coming - Maria Mena (♯ = , Kapo IV )

**Em** Your patronizing stare can watch me heal  
What I would give for you to take the wheel  
**F** **Em**  
It's just been a long time coming

The strong resemblance to my mother's womb  
Is the reason why I will not leave this room  
It's been a long time coming

The lack of self-esteem has grown on me  
I'm not as strong as I appear to be  
It's been a long time coming

My lullaby sounds more like distant screams  
I wake up sleep deprived after every dream  
It's been a long time coming

My flesh makes little sense compared to yours  
I wish my restlessness would open doors  
It's just been a long time coming
